

Creating a new mail account in SolidCP creates a blank signature on Smartermail

The screenshot shows the 'Settings' page in SolidCP, specifically the 'Signatures' section. The left sidebar contains a list of settings categories: Account, Profile, Autoresponder, Calendar, Connectivity, Content Filtering, Events, Scheduling, Sharing, Signatures (highlighted), and Spam Filtering. The main content area has a 'Save' and 'Cancel' button at the top. Below is a 'Signatures' section with a '+ New Signature' button and a list of existing signatures. One signature, 'bobSig001', is highlighted with a red border. To the right is a 'Mapped Field' section with two dropdown menus. The first dropdown is set to 'bob@sm100.com' and 'bobSig001'. The second dropdown is set to 'bob@sm101.com' and 'Use Primary Signature'.

The screenshot shows the 'Signature' editor dialog box. The title is 'Signature' with a question mark icon. The 'Name *' field contains 'bobSig001'. Below the name field is a rich text editor toolbar with icons for Bold (B), Italic (i), Underline (U), Strikethrough, Text Color, Background Color, and a plus sign. The main text area is empty. At the bottom, there are three buttons: 'Cancel', 'Delete', and 'Save'.
