

Deleting a space on SolidCP

 **Delete Space**

The space contains the following service items:

Item Name	Item Type
E:\Sites\123456789011	Home Folder
sm100.com	DNS Zone
sm100.com	Mail Domain
bob@sm100.com	Mail Account
info@sm100.com	Mail Alias

The space contains the following child packages:

Hosting space does not contain nested spaces

Deleting this space also deletes all its nested spaces and all service items such as web sites, databases, user accounts, etc.

Yes, I understand it and want to delete this hosting space

Does not remove the domain from Smartermail

<input type="checkbox"/>	sm100.com		2 / ∞	1 / 400	0 / ∞	0 / ∞	0 / ∞	0 / ∞
